## What is a kindred soul?

A kindred soul refers to a person with whom you share a deep and meaningful connection, often characterized by a sense of understanding, empathy, and mutual resonance. Kindred souls tend to have similar values, interests, and perspectives, leading to a strong bond and a feeling of being on the same wavelength. This connection goes beyond surface-level interactions and may involve a sense of comfort, support, and emotional alignment that can be difficult to find with others.
